Setup Environment for Ansible to work with AWS Cloud

Narendra P
Contact Number: +91-9700462287

Setup Environment:

- Install Ansible Controller on any VM /AWS VM.
- Ansible uses python-boto library to call AWS API, and boto needs AWS credentials in order to function.
  - sudo pip install boto
  - sudo pip install awscli
  - aws configure --> To configure credentials of AWS Account.

Thank you
